Specifications

General specifications

- Voltage: 12 V
- Battery type: NiMh
- Runtime: 11 minute(s)
- Input power: 120 W
- Suction power (max): 22 W
- Airflow: 840 l/min
- Vacuum: 4.2 kPa
- Dirt capacity dry: 0.5 l
- Filter: 2-stage HEPA
- Charging indication
- Battery low indication
- Charging time: 16-18 hour(s)
- Noise Level Lc IEC: 79 dB
- Weight: 1.5 kg

Accessories

- Charging base
- Crevice tool
- Car plug
- Bendable crevice tool
- Brush tool

Design

- Color(s): Titan
- Soft touch handle
- Translucent dust chamber
- Direct charging plug

- F-box dimensions (L x W x H): 195 x 190 x 426 mm
- A-box dimensions (L x W x H): 403 x 393 x 444 mm
- Appliances per A box: 4

Product highlights

HEPA filter to trap the fine dust

The HEPA filter ensures the fine dust and microscopic vermin stay inside the dirt chamber.

Exceptionally quiet

The Philips Mini Vac, with its powerful motor, is exceptionally quiet thanks to its special streamlined design. The comfortable noise level allows you to tidy up your home any time you want to.

One-step click-off nozzle, dishwasher safe

The Philips Mini Vac is easy and quick to empty and hygienic to clean. The Philips Mini Vac has a nozzle that easily clicks off in just one step, so you can empty the Mini Vac without touching the dirt. When the nozzle needs cleaning, you simply put it in the dishwasher. That way you've always got a spotless, dirt-free Mini Vac at hand.

Brush tool, bendable crevice tool and car plug

The FC6092 (12V) includes a special car-cleaning kit with car plug for unlimited runtime, which means consumers can clean their cars thoroughly in one go. This model also comes with an extra-long, flexible crevice tool for easy cleaning around car seats and other hard-to-reach areas.

Cyclonic airflow and 2-stage filtration system

The Philips Mini Vac's cyclonic airflow keeps the dirt inside rotating to ensure optimal, high suction power and lasting cleaning performance. And its 2-stage filtration system ensures that, once inside, the dirt cannot escape. The first filter blocks most dirt, while the pleated, second filter traps the finer dust particles.
